

Revised Expiration of Song-Beverly Consumer Warranty Period

For all adjustments, replacements, or services that require the hearing aid to be out of the buyer's possession, the warranty period will be tolled and will **resume** on *either the date the repaired or serviced hearing aid is redelivered to the buyer, or five days after the buyer is notified that the hearing aid is available for the buyer's possession.* At this time, the dispenser will provide a receipt to the buyer indicating the date the warranty resumes and the revised expiration date of the warranty, as adjusted to reflect the suspension of the warranty. Therefore, whenever the hearing aid is out of the buyer's possession due to replacement, service, or repair, a delivery receipt shall be provided to the buyer that includes the date of redelivery to the buyer and the revised warranty expiration date, as indicated below.

Client Name: _____
